

RANAHINGE NISINI NADARA

Aspiring Quality Assurance Engineer

Software Testing | Web Applications | Bug Tracking | Quality Assurance

Phone: 0703065334 / 0783141702 **Email:** nisininadara69@gmail.com

Location: No.210/1, Uduwawala, Katugastota, Kandy. **LinkedIn:** [linkedin.com/in/nisininadara](https://www.linkedin.com/in/nisininadara)

PROFESSIONAL SUMMARY

Third-year Applied Science undergraduate at Rajarata University of Sri Lanka majoring in Computer Science, Mathematics, and Physics. Strong foundation in software development, web technologies, database systems, and problem-solving. Experienced in developing and testing software applications through academic and personal projects. Passionate about software quality assurance, identifying defects, improving user experience, and ensuring reliable software delivery. Seeking a QA Engineer Internship to develop industry-level testing and quality assurance skills.

EDUCATION

BSc. in Applied Sciences (Major: Computer Science, Mathematics, Physics)

Rajarata University of Sri Lanka | Expected Graduation: 2026

G.C.E. Advanced Level Examination | 2020/2021

Hemamali Girls' College, Kandy | Results: Combined Mathematics (C) · Physics (C) · ICT (C) · General English (A)

G.C.E. Ordinary Level Examination | 2017

Hemamali Girls' College, Kandy | Results: A-4, B-5

PROFESSIONAL QUALIFICATIONS

Diploma in Software Engineering - Wayamba University of Sri Lanka | Reading | 2023

Diploma in Graphic Designing - Sipway Campus | 2023

Basics of Cyber Attacks & Threats (CR839) - UniAthena & Cambridge International Qualifications, UK | 2026

Certificate in English - Intermediate Level - British Council Sri Lanka | 2022

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, C, C++, PHP

Web Technologies: HTML, CSS, JavaScript, Laravel Framework, TypeScript

Database: MySQL

Design Tools: Adobe Photoshop, Canva

Development Tools: VS Code, Arduino IDE, MS Office, Git & GitHub

Concepts: Software Testing, Agile Methodology Awareness, Machine Learning, AI-Assisted Testing Awareness, Object-Oriented Programming, Database Management, Embedded Systems

SOFT SKILL

- Strong problem-solving and analytical thinking
- Effective communication and teamwork
- Quick learner with adaptability to new technologies
- Good time management and organizational skills
- Attention to detail and debugging mindset

PROJECTS

Digital Twin-Based Predictive Maintenance for Water Pumps in Smart Irrigation Systems

[Group Research Project | Rajarata University of Sri Lanka | 2025 – Present]

- Developed machine learning models to predict water pump failures using historical operational data.
- Performed data preprocessing, feature engineering, and model evaluation using Python.
- Contributed to predictive analytics workflows and interpretation of model results.
- Designed supporting mobile UI prototypes and presented findings to faculty reviewers..

Online Order Management System

[Individual Software Project | Diploma in Software Engineering, Wayamba University of Sri Lanka | 2025/2026]

- Developed a full-stack web-based order management system for NNA Tech to digitalise sales and order processing of photocopier machines and spare parts.

- Built using HTML, CSS, JavaScript, PHP, and MySQL - covering product browsing, order placement, and employee-side inventory management.
- Designed and implemented database schema, UI/UX, and backend logic as an individual project.

Railway Booking System [Group Mini Project | Rajarata University of Sri Lanka | 2025]

- Developed a railway seat booking system covering ticket reservation, seat availability, and booking management.
- Built using Java and MySQL; contributed to system design, database structure, and user interface development.

Smart Pedestrian Crossing System with Automatic Waiting Time Reduction

[Group Mini Project (Arduino) | Rajarata University of Sri Lanka | 2026]

- Designed and built an Arduino Uno-based embedded system to adaptively control pedestrian traffic signals using ultrasonic sensors (HC-SR04) and a push button.
- Implemented real-time pedestrian detection logic to automatically restore vehicle signals once the crossing area is clear, reducing unnecessary waiting time.
- Programmed control logic in Arduino C; hardware components included LEDs, ultrasonic sensors, and a breadboard circuit prototype.

Network Resilience – Synthetic Bridge Nodes on Social Media Networks

[Group Research Project | Rajarata University of Sri Lanka | 2026]

- Analyzed a large-scale network containing over 30,000 nodes using Python, R, and graph analytics techniques.
- Applied data analysis and statistical methods to evaluate network resilience and connectivity.
- Visualized and interpreted results to identify critical network structures and recovery strategies.
- Presented data-driven insights through research documentation and technical reporting.

SOFTWARE TESTING EXPERIENCE

Web Application Testing (Academic Practice)

- Performed functional testing on web-based applications developed during academic projects.
- Created test scenarios and test cases to validate application requirements.
- Identified UI inconsistencies and logical defects during testing.
- Verified database operations and user workflows.
- Documented defects and communicated findings to team members.
- Participated in requirement validation and test case design to ensure application functionality and usability.

LEADERSHIP, ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

University Level

- SLUSA Colours Award for Chess - National recognition for 3rd place at Sri Lanka University Games (SLUG) 2023.
- Vice-Captain, Rajarata University Women's Chess Team (2025)
- Represented Rajarata University at Inter University Games (IUG) & SLUG (2023 - 2025) - Team Chess Tournament.
- Senior Graphic Designer (2 Years) - Infocus Media Unit, Rajarata University of Sri Lanka (2023–2025).
- Graphic Designer - Microsoft Student Learning Club (MS Club), Rajarata University of Sri Lanka (2025 - Present).
- Member - Society of Physics & Astronomy, Rajarata University of Sri Lanka (2023 - Present).
- Member - IMSA (Industrial Mathematics Students' Association), Rajarata University of Sri Lanka.
- Member - ARICT (Association of Rajarata Information & Communication Technology), Rajarata University of Sri Lanka.

School Level

- Editor - IT Society, Hemamali Girls' College (2018/2019).
- Junior Prefect - Hemamali Girls' College (2014/2015).
- Member & Best Chess Player (2014) - School Chess Team (2012-2020).
- Member - School Science Society (2018–2020).

ADADEMIC REFEREES

- 1) **Ms. A.K.N.L. Aththanagoda**
Lecturer (Probationary),
Department of Computing,
Faculty of Applied Sciences,
Rajarata University of Sri Lanka.
